SS Tubing Clamps

OGME Tubing clamps are made out of 16 gauge 316 SS and are used to bundle tubing together to protect against the strong vibration common in fluid power systems. Single line clamps are sold in bags of (50) and everything else is sold in bags of (25). Clamps are secured with a 1/4-20 SS bolt with nylon insert lock nut, which can be provide by OGME at an additional cost. Clamps listed below are kept in stock and can be shipped out same day. Duplex clamps are also available but are stocked in limited quantities and sizes. Please call for a quote and availability.
